

FLIGHTS DISRUPTION

Due to unplanned operational event, one of our aircraft has been declared unserviceable. This will adversely impact our operations today.

Customers booked on today's flights should expect delays and in some cases, cancelations. We have made arrangements to re-protect a limited number of passengers on other airlines as much as possible.

Arrangements are also in place to effect immediate refunds to passengers who may wish to apply for same at the airport.

We sincerely apologise for the inconvenience this development may cause to the travel plans of customers.

Affected customers can contact our call centre on 01-2799999 or email callcentre@arikair.com for rebooking options at no extra cost.
